4. Рассказ **Television in the life of people**

Television now plays an important role in our life. It is difficult to say if it is good or bad for us. It is clear, that television has advantages and disadvantages.

First television is an entertainment. It is a convenient entertainment. We don't have to pay for expensive seats at the theatre or cinema. We turn on the TV-set and can watch interesting films, concerts, football matches. But some people think that it's bad to watch TV. They say we are passive when we watch it. We watch television every evening, and it begins to dominate our lives. Very often the programmes are bad. Sometimes they show too much violence in films and news programmes. There is also too much pop music and ads. As for me I like / don't like watching television.
